Automatisch importiert von Descente-Canyon.com für Canyon Grand Vent Il faut être spécialiste course d'orientation pour trouver le chemin d'accès. Une fois cette étape fastidieuse (pour être poli) aboutie, on tombe sur un canyon ouvert, très sympa, avec un panorama magnifique sur la vallée de la Malsanne, où les nombreux rappels s'enchaînent. L'équipement est ok (souvent en monopoint pour les petits rappels). (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2271/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Grand Vent On y allait pour le faire depuis le temps, mais à vrai dire, ça vaut le détour. La marche d'approche hors sentier, dans les pierriers et la neige fut délicate. De ce fait, on est même rentré plus bas que voulu, car ça devenait franchement casse gueule dans les dalles enneigées. On a donc mis 2 points pour rentrer sous la C 21. La descente est belle, avec des passages bien sculptés et de belles lignes. Équipement au top et bien placé.
