Country: España / Spain **Region:** Cataluña / Catalunya **Subregion:** Barcelona [Barcelona] / Provincia de Barcelona **Town:**

Difficulty: a little difficult	**Grading:** v4 a1 II	**Total time:** 3h25
Approachtime: 25min	**Tourtime:** 2h	**Returntime:** 1h
Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 400m	**Highest rapell:** 35m	**Amount rapells:** 11
Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Descent with almost no water except after heavy rains, no technical difficulty except for the 35m rappel.

Hydrology:

Access: (machine translated)
Location Saldes ravines
We will be located in Saldes, for them between Berga and Puigcerdà, just before reaching Guardiola de Bergueda, after leaving the tunnel we have the detour to the left by the B400 to Saldes and Vallcebre.
Access to Saldes ravines
After pk 3 there is a track on the right that after crossing the Torrent de Bosons goes down to the river Saldes and parallel to it approaches the exit of the ravines Pujar and Esgarrifos. There we will leave the return car if we have it.
Following the road to pk 6, soon we have room to park on the right, this is the access.

Approach: (machine translated)
Cal Clot and Esgarrifos Ravines
From the parking we will have a track/path that will go down to the bed of the first torrent that is ours.

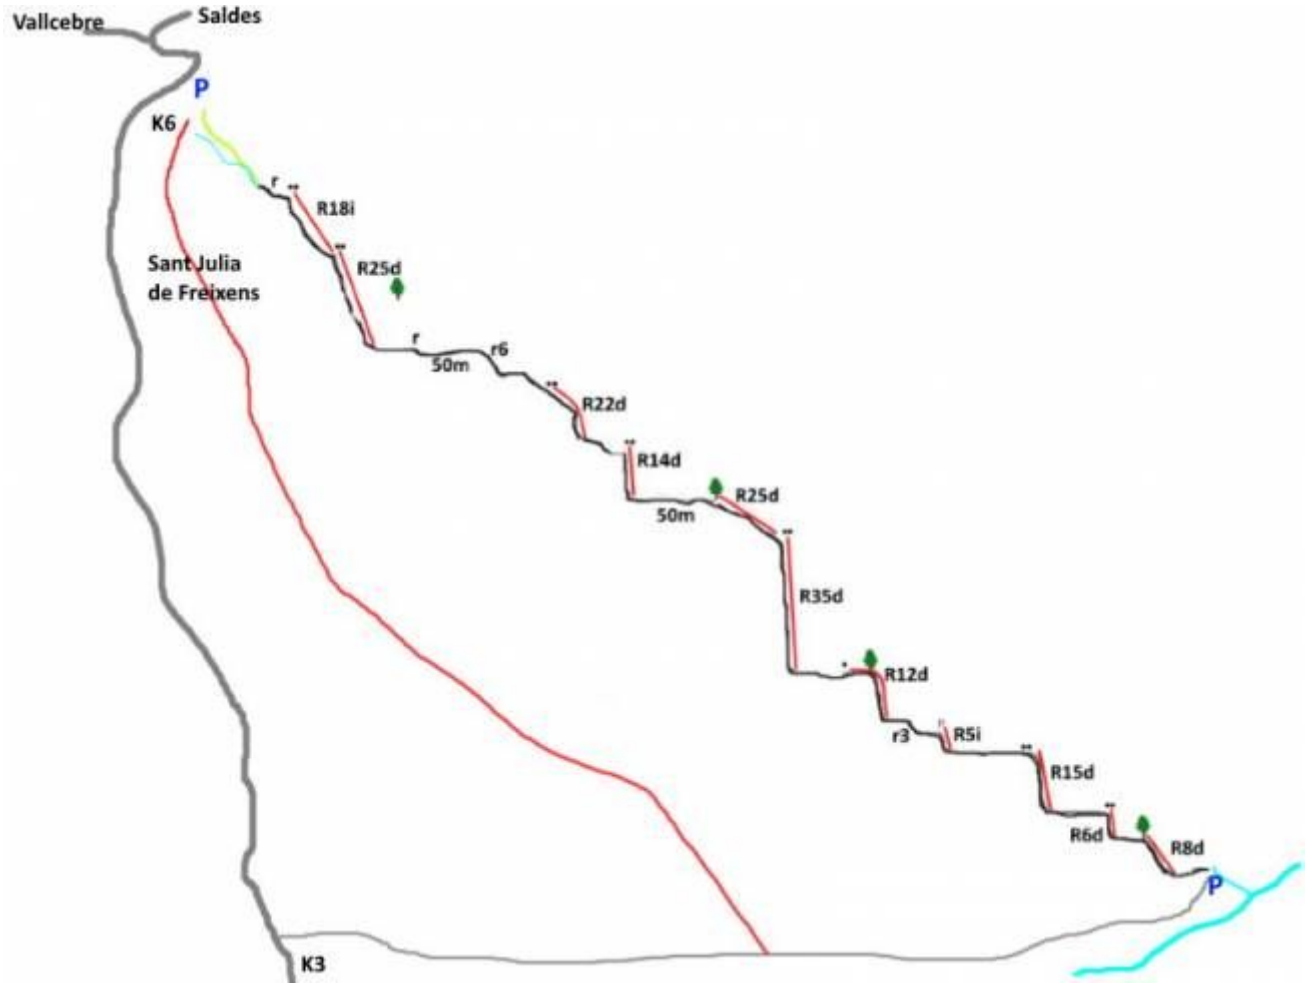

Tour: (machine translated)
Torrent with almost no flow except after rains.

Return: (machine translated)
If we have two cars the return will be immediate.
With only one car we will follow this track to the right until Cal Coix, shortly before crossing the Torrent de Bosoms and here we will turn right towards the hermitage of Sant Julià de Fréixens. This same path leads us to the road next to where we parked.
