Summary: (machine translated)
High alpine and varied rappel canyon

Hydrology:

Access: (machine translated)
We drive from Ainsa (town center) on the N-260 to Broto for 40.3 km to the bridge over the Rio Ara. From the bridge we continue on the N-260 for another 2.6 km and then take a left turn in a northerly direction to Torla. We pass the town and 4.8 km after turning off the N-260 we come to a junction where we turn right into the Arazas Canyon. However, we turn off here into the upper Rio Ara valley and drive another 6.4 km to the Refugio de Bujaruelo. We park the car there.

Approach: (machine translated)
We now cross the Romanesque bridge of San Nicolas de Bujaruelo on foot and follow the path uphill on the other side. It leads up to the Puerto de Bujaruelo border saddle and further down on the French side into the Gavarnie. At an altitude of 1630 m, below a pylon, the path branches off, we turn left and after another 160 meters we reach the stream (entry).

Tour: (machine translated)
About 15 rappels, at the top in a kind of gorge, then down over long wide ramps.

Return: (machine translated)
In the wide gravel bed at the exit of the canyon, we take the path that crosses here to the left and in a few minutes are at the old bridge and the car.

Automatisch importiert von Descente-Canyon.com für Canyon Lapazosa Peu d’eau dès le début mais les vasques sont propres et claires. En revanche avant le chaos, deux chevreuils morts dans l’eau précèdent une vasque « borgne », obligeant le premier équipier à descendre dans celle-ci pour installer un guidé (RD) pour ne pas se baigner dans le jus de carcasse ...sinon dans l’ensemble c’est un très beau canyon avec une magnifique vue au sommet de la c55 (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21048/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Lapazosa Caudal bajo. Condiciones aceptables por pocos días si no llueve. Instalaciones justas y a veces precarias. Necesaria reequipación evitando chatarrear un barranco que hasta el momento se ha mantenido alejado de las sobreequipaciones.
