Specialities:

Gear:

Summary: (machine translated)
Rappel canyon, difficult to access, relatively rarely walked.

Hydrology:

Access: (machine translated)
Coming from Turin, Frejus we leave the A32 via the exit "Susa Est", cross the town of Susa and then take the SP210 to Novalesa.\nIf we arrive from the direction of Briancon, we leave the A32 via the exit "Susa Ovest" and get directly on the SP210 that leads us to Novalesa.\nAt the first houses of the town we turn left over the Rio Bard and continue on the SP212 towards Moncenisio for about 2km (from the bridge) up to the houses of Santa Maria. Another 600m further on, a dirt road turns off to the right at a sharp angle. Before the barrier we park our car at the edge of the slope.

Approach: (machine translated)
Continue up the dirt road for about 4 km to the houses at the exit of the dirt road. For further access see Gole & Canyons. 3- Italia North-East. Francesco Cacace - Roberto Jarre - Dino Ruotolo - Roberto Schenone, 2003, in German translation on page 90.

Tour: (machine translated)
see Gole & Canyons. 3- Italia Nord-Ovest. Francesco Cacace - Roberto Jarre - Dino Ruotolo - Roberto Schenone, 2003, in German translation on page 90.

Return: (machine translated)
The 60m waterfall is followed by a 15m rappel and after partly unpleasant downclimb in the streambed another 15m rappel. Below this last rappel, a path leads away to the left, which brings us in 20 min. to the slope. On this path back down to the car.

Coordinates:
Canyon Start 45.2122 7.0053
Canyon End 45.2079 7.0065
