Summary: (machine translated) Approach alternative to Rumbau with some rapell, including through a natural arch.		
Hydrology:		
Access: (machine translated) From Seu d'Urgell on the C-14 we drive 37.7 km in the direction of Lerida and then about 2.5 km before Oliana we turn right and drive on the LV-5118 in the direction of Peramola. After 3.1 km we turn right and drive 1.2 km up to the Hostal del Boix (Can Boix de Peramola). A little below the hotel complex we find space for our car.		
Approach: (machine translated) We take the path behind the hotel that goes to the left towards Roca del Corb (signpost). At an altitude of about 800 m, we meet a dirt road that we follow to the right (N). At the forks we keep to the right ("Roca del Corb"), walk below the church of Sant Salvador del Corb and we are at the beginning of a circuit of the mountain on the left. However, it does not come so far, because at the beginning of the circumnavigation we take a slope to the right in direction NE. On the right below we see a barranco, which we pass keeping left. Then we enter the next "our" Barranco del Corb".		
Tour: (machine translated) 4 rapell down to the Rumbau overlooking the massive natural arch.		
Return: (machine translated) After reaching the Rumbau in this barranco further down (see: http://canyon.carto.net/cwiki/bin/view/Canyons/RumbauCanyon)

Automatisch importiert von Descente-Canyon.com für Canyon Roca de Corb Micro filet d'eau tout le long. Vraiment pas majeur mis à part l'arche de conglomérat qui est de bonne taille ! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22293/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Roca de Corb Bonita actividad situada en un paraje excepcional. Continuamos con el barranco "rumbau", con un poco más de agua. Neopreno aconsejable en estas condiciones. Instalaciones OK. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22293/observations.html>)
