Gear:

Summary: (machine translated)
Nice activity in which we will combine a ferrata and a canyon. The access is through the El Chorrico fountain by climbing the ferrata wall.

Hydrology:

Access: (machine translated)
We must be located in the village of Tous. We will arrive by the CV541 that we will follow straight on towards the dam of the reservoir.
After almost 5kms from the village we will reach a detour, left to the dam that we will not follow, straight ahead by the path of Pollet-Terrabona. A kilometer and a half later we take a detour to the left that goes down to the reservoir (straight ahead we would go towards Olla and Pertecates). Once at the reservoir we continue as far as we can.

Approach: (machine translated)
Along the Chorrico path we will approach the wall where the ferrata is. We will see the signs of the ferrata with its description. After doing it we go out to the right to look for the first meeting of the ravine.

Tour: (machine translated)
Very simple, it can be used to initiate in ferratas and canyoning.

Return: (machine translated)
We will go out to the Chorrico fountain, we only have to retrace the path.
