| **Rating:** ☆ 3.6 (2) | **Info:** ★ 0 () | **Belay:** ★ 0 () |

**Specialities:**

**Gear:**
Ropes: 2x25m

**Summary:** (machine translated)
Rappel canyon

http://canyoning.pirineos-pyrenees.eu/barranco/8

**Hydrology:**

**Access:** (machine translated)
We drive on the N-260 from west to east through Castejon de Sos and then turn left immediately after the church. We follow the road for about 850 m and come to a cemetery to the right of the road. We park the lower car here. Take the second car back to the village (Castejon de Sos in Valle Benasque/Val d'Esera) and drive 1.1 km (from the center of the village) eastwards on the N-260 towards El Pont de Suert. Then turn left onto the road to Liri. 2.5 km after the turn-off, we come to a prominent right-hand bend with a clear widening on the left. We park the top car here.
You can also (if you don't have a second car) take an old path from the cemetery on foot in a north-easterly direction up to the road and - keeping left - come to the entry parking lot described above.

**Approach:** (machine translated)
Either level north on the path to the stream, which we reach below the 1st waterfall, or up the embankment and the meadow above and beyond into the streambed above the uppermost of the 12 waterfalls.

**Tour:** (machine translated)
12 rappels in a row, see photos

**Return:** (machine translated)
After the last rappel down the creek to a slope that crosses the creek. On the slope to the left and in a southerly direction to the (possibly lower) car.

**Coordinates:**
Canyon Start 42.5307 0.5059
Canyon End 42.5276 0.4936
Parking at Entry 42.5287 0.5043
Parking at Entry 42.5298 0.5016
Parking Entry and Exit 42.5189 0.4907

Automatisch importiert von Descente-Canyon.com für Canyon Liri Quel plaisir ce canyon avec ces températures. Canyon assez continu dans son style, mais rappel généralement en dehors de l'actif. Main courante en place. Celle du R5 mérite d'être changée. Un jolie toboggan au milieu mais les vasques sont engravées. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2769/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Liri Ça coule bien, échelle à 40 si j’ai bien vu car elle est abîmée. Un petit animal mort (agneau ?) vers le rappel 3 ou 4. Il faut aimer les enchaînements de rappels, quasi tous hors d’eau, pas de sauts ni de tob, pas de nage, au grand maximum on a de l’eau au niveau du torse sur quelques mètres dans ces conditions, pas de belles vasques. 2,7 un peu surcoté de mon point de vue. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2769/observations.html)
