Specialities:

Gear:

Summary: (machine translated)
Also reviewed in some sites as barranc Marrai or Cadolles. It is a short and fun canyon to combine with any other in the area.
Much better after rains
Attention: the accesses and return are made by fields of crops to respect.

Hydrology:

Access: (machine translated)
On the N230 going up towards Vielha, past Sopeira, at km 112.7 we take the detour to the left to Santorens.
With only one car we will go up to the village and just at the entrance we will turn right to the street where the cemetery is, we park there.
With two cars we can continue along the track that leaves the cemetery until a curve to the right with some fields on the left and the ravine in that direction. The return car will go to Els Molins where the road makes a curve to the left just above the river.

Approach: (machine translated)
Along the cemetery track we will continue to a small hill where the road turns to the right and leaves some fields on the left. From here you can see the access to the ravine down to the riverbed without a defined path.

Tour: (machine translated)
Short but interesting descent if we take it with water. Well-formed rappels and a very beautiful environment.

Return: (machine translated)
After rappels 9 and 14 the ravine opens up and a small path to the left towards the forest and after crossing it we will reach some meadows where we will see a track that takes us to the village.
