Specialities:		
Gear: Ropes: 2x30m		
Summary: (machine translated) Very aquatic; clean cold mountain water; only single pitons; beautiful partly slippery granite rock; emergency exit at the beginning and at the end; super high speed slide (20 m; be careful!); rather short canyons little used.		
Hydrology:		
Access: (machine translated) From Biasca ri Malvaglia/ Motto (Val di Blenio) --> at the 2nd entrance right into the village Malvaglia Chiesa --> in the village ri. North (several sleepers approx. 700m) to a fork (Pontirone) --> the steep mountain road over several Zerpen- tinenkurven up to a road fork (stone arch) --> here you follow the road course left, past the barrier and further up to the huge dam wall --> at the upper edge is a parking lot (approx. 990Hm).		
Approach: (machine translated) From the parking lot over the dam through the tunnel --> after the tunnel immediately 360° left up the trail --> over a bridge and past the house --> the entry is at the 2nd bridge (over the stream) at about 1135Hm.		
Tour: (machine translated) Immediately after the bridge you have the first rappel C20 (water level control) --> this place can also be bypassed right --> a cascade follows the right of the tree first R15 rappel and 4 m can be slid --> should be here already too much water, you can break off at the beginning --> now follow some jumps and slides which are to be enjoyed with caution --> the pools are crystal clear but you can't always see the depth because of the white water --> the canyon is a lot of fun especially for those who like jumping and sliding in an aquatic environment --> the highlight in the canyon is the 20m slide with flying descent (see topographic view --> after the big slide (resp. rappel) it goes mostly only descending with small jump and rappel places --> one has shortly after the slide the possibility to exit left or to go to the reservoir at the big funnel and exit left at the railing (ca.990Hm).		
Return: (machine translated) From the trail back through the tunnel over the dam wall in a short time back to the parking lot.

Automatisch importiert von Descente-Canyon.com für Canyon Combra R.A.S, eau très froide à cette période, gants fortement recommandé, le tob de 20 est praticable mais reste un tob qui secoue fortement au moment où la pente se redresse et nous éjecte. Tjrs aussi magnifique comme canyon ! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2658/observations.html>)

Low water level, not as slippery as in July, VERY (!) cold water despite the heatwave! Stands and jumps all tip top There is currently a large construction site at the exit, the mushroom is completely scaffolded, but the exit was easily passable. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Combra Un petit GD. Sans connaître, nous n'avons pas osé le T20 dans ces conditions qui a l'air de satelliser. De même, l'enchaînement de tob 8/4/6m dans le topo Nizzola nous semblait complètement irréalisable dans ces conditions sans perdre le contrôle. Sinon très beau canyon, très rentable. Une eau bien fraîche, mais il faisait très chaud. Ça glisse pas mal, vigilance sur les appuis. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2658/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Combra Un point plié rg vers le départ, s'esquive par la rive droite vers un arbre. Certaines vasques produisent des mouvements d'eaux, mais cela passe bien. Fait en 2h30 à 2, hors marche d'approche.
