All the anchors are in good condition (stainless steel). We had hoped for much more from a “canyon with fun elements.” Lots of wood, 1.5 slides. We won’t be going back. Lucki would have given it only one star. (machine translated)

All anchors ok. No anchor to be found on the last C5 AN on the left. Good grip. In the walking passages a few unstable wooden obstructions. Exit via the inlet rd (climb 100 m up the streambed) after the last rappel, then 15 minutes on the hiking trail. (machine translated)

All anchors that were there were tip top... No anchor found on the last c5... We then rappelled down the tree (AN). Very grippy when walking Exit in the streambed up to the hiking trail then follow to the right to the parking lot (machine translated)
