Specialities:

Gear:

Summary: (machine translated)

The canyon can be divided into an upper and a lower part:

Upper part: from the settlement of Mayrhofen to the B161 road bridge.

Lower part: from the road bridge to the Rettenbach settlement.

The upper part can be skipped: lots of walking terrain and few to hardly any interesting spots.

There are several abseiling points in the lower part, but overall the canyon is more for collectors.

PS: There was a flood in 2024 that left a lot of wood in the canyon. No information on the current condition.
