Summary:
The Tara River is considered to be the largest and longest canyon in Europe. It is a canyon with a high water flow and can be navigated by raft or packraft. The most beautiful section stretches from to. There are no abseil points, but there are several rapids which must be assessed depending on the water level. The following may serve as a general guide to the rapids levels: * May–June–July: rapids levels II, III, IV * July–August–September: rapids levels I, II, III. Along the Tara there are several...
