Summary: (machine translated)
Rappel canyon in mostly open terrain

Hydrology:

Access: (machine translated)
We turn off the A1 highway (Athens - Thessaloniki) at the Kileler exit (about 20 km before Larissa and about 35 km from Volos) and drive through the plain in a northeasterly direction to Kalamaki (13 km from the highway). Cross the village and continue in a northeasterly direction into the Mavrovouni mountains. After about 24 km from Kalamaki - the road has sunk to the sea in the meantime - we cross the Rokapotamos. On the large area after the bridge on the left we park the lower car. With the second car we go back 2.8 km on the approach road, then we turn right at a sharp angle onto a track that is also good for non-4x4 cars. On this track - mostly flat - we come after 2.6 km (from the turnoff to the track) to a pig farm. Here we park our car, if we do not drive a 4WD.

Approach: (machine translated)
Continue on the slope. At the following junction after about 1250m keep right straight ahead.... After another almost 1000m we can park our 4WD car in a leftward haipin bend, if we have one.
From here we go in the direction of NE and reach after about 50m through the forest the stream - entry.

Tour: (machine translated)
11 rappel, varied, towards the exit quite a rush.

Return: (machine translated)
Immediately before the road bridge up to the road and right to the car.
