Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Interesting dry canyon with rappels up to 40m, we can easily combine it with the ferrata we have next to it. On the approach we can visit two small mines
To complete

Hydrology:

Access: (machine translated)
We must be located in Berja.
In the village we will go towards the bullring/football field and we will follow that street/road towards Castala by the AL-5401.
We will leave Berja behind and soon we will arrive at Castala, at the entrance there is a detour to the right to the periurban park by which we will go up to the top, where the viewpoint, here where a track that continues ascending towards the ferrata and the climbing routes. We continue about 500m until the track passes over a wadi in the curve and shortly after we would have the ferrata. We parked in the curve.

Approach: (machine translated)
Along the path of the ravine that goes up to the mines, we will pass by the Café con Leche mine and then Benito mine, and from here we will access the rambla.

Tour: (machine translated)
Ten rappels, the first is the longest of almost 40m to descend this wadi.

Return: (machine translated)
Along the access path
