Summary: (machine translated)
Short canyon, without big rappels, for collectors. Similar access to Gubies de Regatxol.

Hydrology:

Access: (machine translated)
From Beceite: road to les Pesqueres (sign). It goes up the Ulldemó river. Park where the road ends (there is space).
From Roquetes: along the Port road. Pass the urbanized area and follow the track to Fredes. At about 2.5 kms there is the detour to the Regatxol on the right (there is a sign). You reach a fence that may be open (Oct-Jan) or closed in which case park. If not, continue past the Gubies de Regatxol and go up the track to the next ravine.

Approach: (machine translated)
From Beceite: We continue up the river along the path. We pass the "Estrets del Regatxol", to the right is the end of the ravine of Les Carboneres, until the "Ullals de la Figuerassa" (left source) and the "Ullals de Tall Nou" (right source). Here you have to go up the purple-dotted path to the track, take it to the right and get into the headwaters.
From Roquetes: If the fence of the track is closed, follow it to the beginning of the ravine.

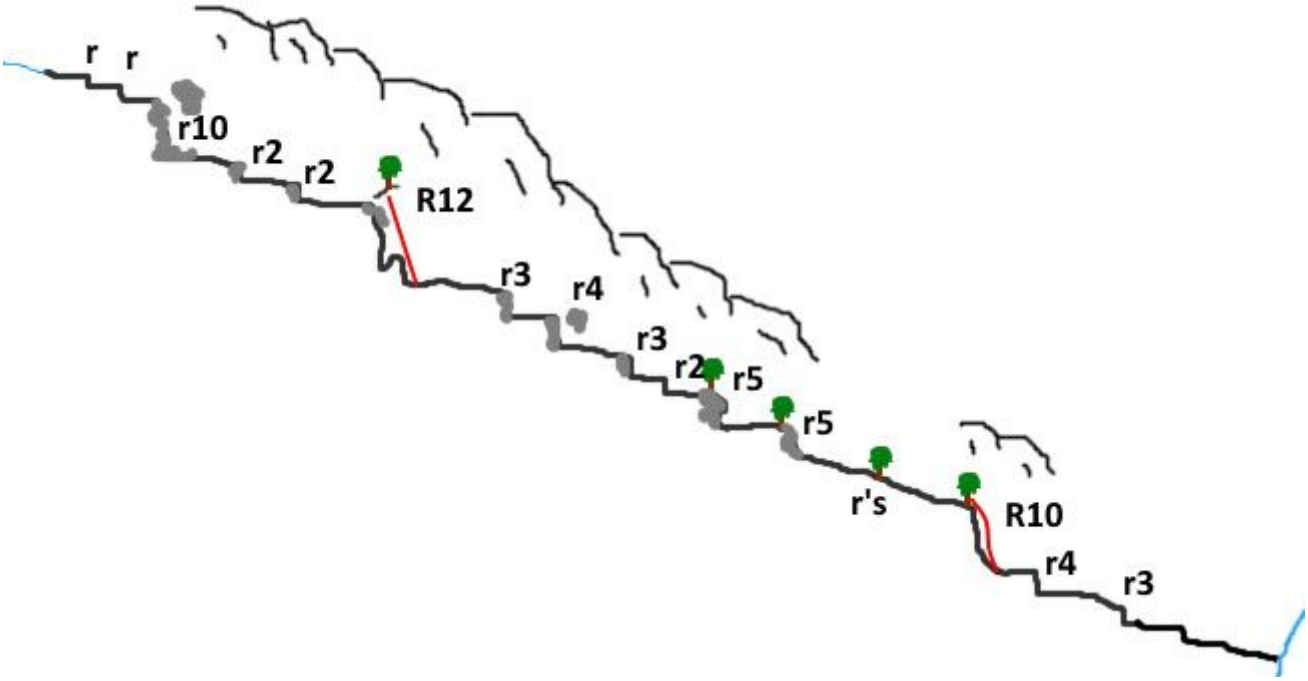

Tour: (machine translated)
See mole

Return: (machine translated)
We will take the trail back to Beceite or go up the path of the purple dots to the track.
