Second time and every year again □□□□□□□□□□□. A very interesting canyon when the flow is good. We approached it from the Varen alp. It can also be reached from the Gemmipass. Longest pitch: 85 m. A few points were doubled last year and are still in place and in good shape. Equipement, more than adequate. CAUTION on the last big rappel! Rockfall' □□□ The inferior part (after Larschi) still has some rappels. Happy to have been part of the opener team, some years ago. A fantastic little Upper Valais beauty! With nature and wildlife at its purest. Eagle, gypaètes, chamoix, bouquetins,... □□

A few points were doubled this day, but otherwise the equipment was more than adequate! The inferior part (after Larschi) still has some rappels. Thanks to the openers of this little Upper Valais beauty! (machine translated)
