<b>Summary:</b> (machine translated) Vertical descent, with only 3 rappels, the last one hanging.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) We must reach the town of Gestalgar. We can go by the A3 from Chiva/Cheste by the CV379 or by the CV35 from the detour of Villar del Obispo by the CV395. On the outskirts of Gestalgar on the CV379, just across the Turia we have a detour to the Fuente de Peña Maria, take this track and go around the walls until before crossing the ravine, if we reach the end of the track we will have passed but we can also park here. The approach path is about 150m before the end of the track (parking lot).		
<b>Approach:</b> (machine translated) Along the white and green marked trail we will climb the cliffs up to the obvious entrance of the ravine.		
<b>Tour:</b> (machine translated) A split vertical, the long rappel is made from a hanging belay.		
<b>Return:</b> (machine translated) Evidently, we follow the riverbed to the access path.
