Specialities:

Gear:

Summary: (machine translated)
Nice narrowing of one of the streams that later form the Barzolos ravine, very short but very well formed. A good option to combine, yes, we will only find water in periods of rain.

Hydrology:

Access: (machine translated)
We will have to be located in Bigüézal.
We will take the A21 until exit 35, Lumbier. We will take this road, the NA150, to Lumbier. In the village we will continue towards Navascués on the NA178.
Up to the bridge of Bigüezál over the river Salazar, we can park here the return car if we are going to combine both descents. With the access car or if we only have one car, we go up the road to Bigüezal, in the same village, after passing the garbage garbage cans in the left curve, there is a track on the right that we will take. After 800m the track makes a double left-right curve with a hut on the right and crosses a stream, ours. We park

Approach: (machine translated)
Direct

Tour: (machine translated)
A little after passing the track above the stream, it narrows, we will find a first short rappel and then the long rappel to finish descending to the gap. Shortly after a bifurcation to climb/rappel and the difficulties end if we do not continue to Barzolos.

Return: (machine translated)
As soon as we left the gap, we went to the right slope to go up to the trail.
