Specialities:

Gear:

Summary: (machine translated)
It also has by toponymy Torrent Fondo, it is the upper part of the Bco d'Enseu. To be done only when the rest are too far gone, in summer it is better to avoid it. Collecting (given the little interest is briefly reviewed)

Hydrology:

Access: (machine translated)
On the N260 going up from La Pobla de Segur towards Sort, just before reaching Gerri de la Sal at pk 295.
We will take the detour to the right towards Baen where we will park at the entrance.
With the access car we will continue 1km until a sharp left curve, after 100m we will take a track on the left that we will follow for about 2.5km. Just before a very sharp right curve, there is a downhill track on the left, we get in here and park.

Approach: (machine translated)
We will follow this track to the riverbed and then along the riverbed on the right bank to a log bridge. Soon the interesting part begins

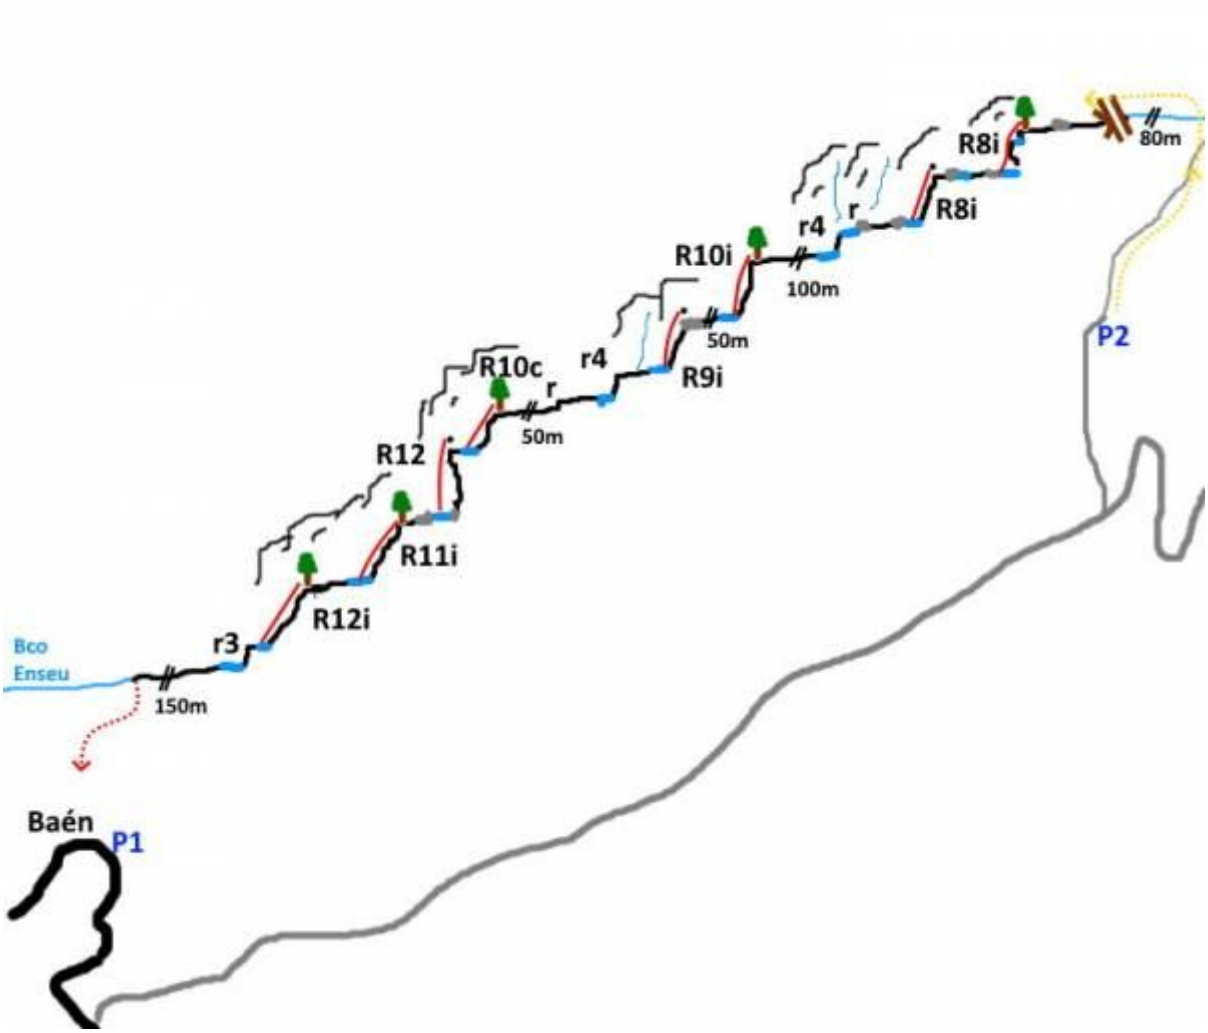

Tour: (machine translated)
A canyon without big rappels, or flows, or formations... A canyon to do if there is no possibility of any other canyon.

Return: (machine translated)
After the last difficulties, we will see a rocky area on our right and on the left traces of an old path and an irrigation ditch. We will go up here and soon we will find yellow marks that will take us to the village.
