Reports:

2025-09-05 | MirkoT | | | | ↗ Emergency exit

Recent report "Almost the entire canyon is equipped with single bolts. At one rappel of about 30 meters, a bolt came out completely. Fortunately, the person who was about to rappel noticed that the hanger was not fixed, and after a brief inspection, was able to pull out the entire bolt without much effort... The bolt was only about 5-6 cm long." (machine translated)
