Summary: (machine translated)
A few nice parts, including a great waterfall with a slide. Rather something for connoisseurs of the area, but still beautiful.

Hydrology: (machine translated)
The water flow is generally low, but the stream valley carries water all year round.

Access: (machine translated)
Approach without shuttle bus: On the D2205 road up the Tinée valley, before Pont de Clans, park just before the bridge above Figgiette.
Approach by shuttle bus: Continue on the road and climb towards Clans. At marker 39, go down to the Vallon de Monar (same approach), cross this valley but continue along the path, pass markers 48 and 49 and descend to the Vallon de Figgiette until you meet it. Park on the left before the valley and go straight down...

Approach: (machine translated)
Between the bridge and the small rock face, a good path (on the left bank of the river) leads past the foot of a power pole to fenced fields. Continue along these, past ruins and paths, until you reach an old canal. Follow this to the left until you reach the stream.

Tour: (machine translated)
A few nice parts, including a great waterfall with a slide. More for those who know the area, but still beautiful.
Only 5 obstacles: C10, C22, C14, R5 (descent) and further back, after a water intake on the right bank of the river: C12.

In summer, the lower part of the suit may be enough.

Return: (machine translated)
Leave the D2205 bridge on the left bank, otherwise you will inevitably end up on private land. You reach the cars directly.

Automatisch importiert von Descente-Canyon.com für Canyon Figgiette (aval) On a choisi l'option sans navette. On s'est un peu perdu au dessus des ruines mais on a fini par trouver le canal. Pour info, ce canal se situe juste quelques mètres en dessous de la piste et il faut bien monter jusqu'à ce canal, sinon vous raterez la grande cascade. Donc pour résumer, pendant l'approche, le sentier est toujours ascendant jusqu'au canal. Si vous êtes sur un sentier plat ou qui descend, c'est que vous n'êtes pas sur le bon chemin.Descente du canyon en 2h sans se presser. L'eau est très belle mais malheureusement, aucune vasque profonde.Bas de combi largement suffisant aujourd'hui. Automatisch importiert von Descente-Canyon.com für Canyon Figgiette (aval) Les obstacles sont sympas et bien équipés mais ça manque cruellement de continuité. Je n'ai pas trouvé le chemin d'approche en 35 mn car au niveau des ruines, j'ai perdu la trace des points bleus sur les arbres. Si vous ne faites pas la navette, soyez donc vigilants au niveau des ruines. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2902/observations.html)
