<b>Summary:</b> (machine translated) A few nice parts, including a great waterfall with a slide. Rather something for connoisseurs of the area, but still beautiful.		
<b>Hydrology:</b> (machine translated) The water flow is generally low, but the stream valley carries water all year round.		
<b>Access:</b> (machine translated) Approach without shuttle bus: On the D2205 road up the Tinée valley, before Pont de Clans, park just before the bridge above Figgiette. Approach by shuttle bus: Continue on the road and climb towards Clans. At marker 39, go down to the Vallon de Monar (same approach), cross this valley but continue along the path, pass markers 48 and 49 and descend to the Vallon de Figgiette until you meet it. Park on the left before the valley and go straight down...		
<b>Approach:</b> (machine translated) Between the bridge and the small rock face, a good path (on the left bank of the river) leads past the foot of a power pole to fenced fields. Continue along these, past ruins and paths, until you reach an old canal. Follow this to the left until you reach the stream.		
<b>Tour:</b> (machine translated) A few nice parts, including a great waterfall with a slide. More for those who know the area, but still beautiful. Only 5 obstacles: C10, C22, C14, R5 (descent) and further back, after a water intake on the right bank of the river: C12.  In summer, the lower part of the suit may be enough.		
<b>Return:</b> (machine translated) Leave the D2205 bridge on the left bank, otherwise you will inevitably end up on private land. You reach the cars directly.
