Specialities:

Gear:

Summary: (machine translated)
Dry, vertical ravine in the Lentegí area. If it has rained a lot the upper ditch can carry water and make releases through the ravine.

Hydrology:

Access: (machine translated)
We must approach Lentegi.
On the bridge at the exit of Lentegi we can park the car to return.
With the access car we follow the track that comes out at the end of the village to the beginning of the route of Las Viñas, after almost 500m there is a track on the left, downhill just in the Bco Las Viñas we will go down to where it meets the ravine and park.

Approach: (machine translated)
With an access car it would be a matter of going down the riverbed to the beginning of the slopes just before the cuts.
With a single car we have to go up the tracks and some trails below Lentegí to the ravine (see map).

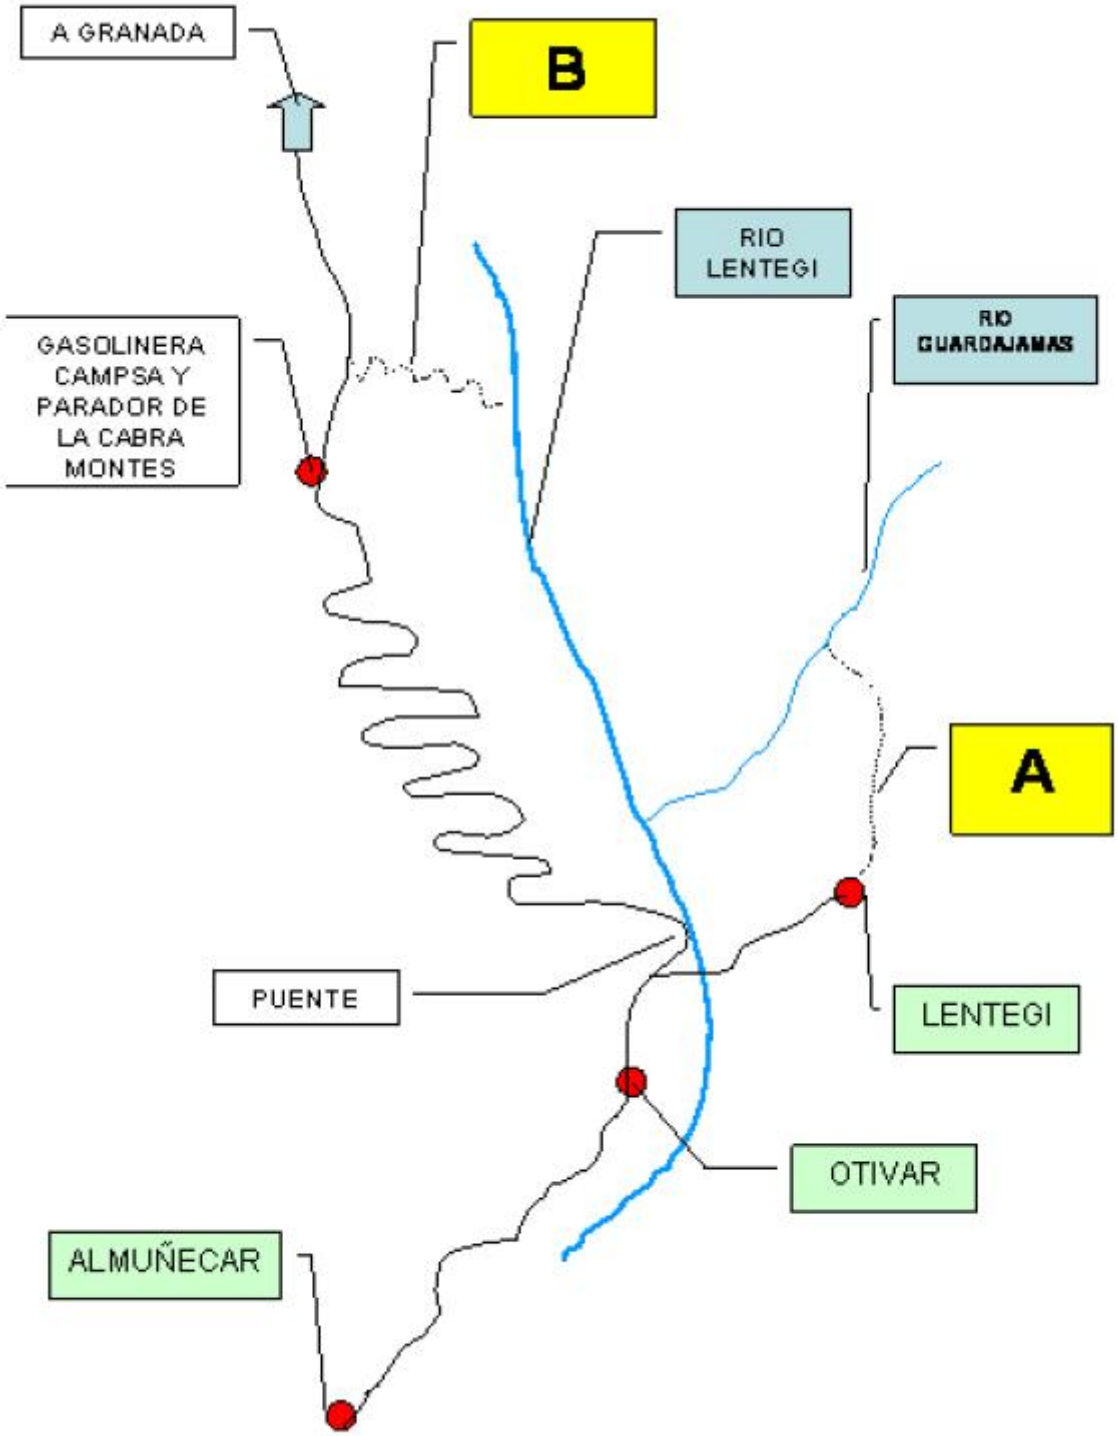

Tour: (machine translated)
Vertical, dry

Return: (machine translated)
We can return along the Lentegí river doing the missing rappels or just before the river a small path on the orographic left will lead us to some tracks where we can get to the bridge.
