Specialities:

Gear:

Summary: (machine translated)
It is named after the path by which it is accessed, beautiful views of the north coast of Gran Canaria in this simple descent.
We can park above, below in San Felipe or even make a combination of vehicles to save us a little bit of walking.

Hydrology:

Access: (machine translated)
By the GC2, by the north of the island
We can leave at exit 20 to take the GC291 or exit 15 also towards GC291 or GC751 to San Felipe.
Location of San Felipe ravines
Parking at the top, on the GC291, in the p.k 6.9 in the curve, we have the exit for the path of San Felipe. We get into this track and park.
If we want to park at the bottom we will go to San Felipe by the GC751 until the end.

Approach: (machine translated)
Access bcos Valerón, Calabozo, Silva and Guayarmina
From the top it is very easy to park and follow the track until it ends, then the San Felipe trail goes to the right through the tunnels. We will go down the ravine to pass under the highway bridge, where the R1 is located.
From below by the street Diseminado de San Felipe we approach the base of the bridge of the freeway, arriving we will find a path on the right "Camino de San Felipe" where we will go up until we pass the last tunnel of GC2 towards Galdar. Here we will take the path to the right towards the bridge.

Tour: (machine translated)
See mole

Return: (machine translated)
We continue walking to the beach where we will find a path parallel to the coastline, 300m to the right we will reach San Felipe passing by the bunker.
