Summary: (machine translated) The Drieschtbach means you have to be fit and ready for a long day—and you'll probably get sunburned... The canyon itself isn't very long, but the approach and return are definitely strenuous... However, it's also located in a beautiful region where you can see glaciers, rock spires, and other canyons that haven't been explored yet... And hey! Someday, the "skyline" will consist of nothing but the Matterhorn!
