Specialities:

Gear:

Summary: (machine translated)
It is a very aquatic vertical due to the Turia canal with a "zip line" access.

Hydrology:

Access: (machine translated)
We must be located between Calles and Losa del Obispo.
From the viewpoint of Domeño pk 60 or from the tail of the reservoir of Loriguilla pk 62, we will take the road to the right that goes down to the dam of Loriguilla. Right next to the dam we will take the track that goes to the base of the waterfall. Just at the foot of the waterfall (on the other side of the river) and before reaching the bridge of the hydroelectric plant, park.

Approach: (machine translated)
We cross the river under the bridge and go up the hillside along the fence to almost the headwaters, here we will see where the water goes down and the zip line to cross the riverbed.

Tour: (machine translated)
The zip line and then we descend by the orographic right. A first climb to access the vertical, with 3 rappels that divide it.

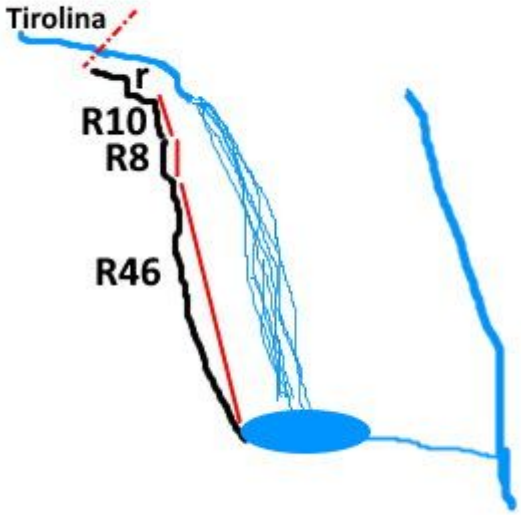

Return: (machine translated)
Straight ahead to cross the river towards the car. If the Turia is strong we can go to the right on a path to cross the bridge about 200m further down.

Coordinates:
Canyon Start 39.7043 -0.9459
