Good anchors; first C8 after the 100m walk is one very difficult to reach bolt, but there is alternative natural anchor on the right side. Foto: normal water level at the start of the canyon.

Normal water level for Sefi. Great canyon. Superiore conditions at the moment. We started in Mürren and walked down to the Stechelberg gondola at the end. (machine translated)

Beautiful alpine canyon. All the pools are filled with gravel. We started from Gimmelwald. Most of the abseils are in good condition. Very aquatic. The rappels lead through waterfalls. 3 people around 3.5 hours in the canyon. (machine translated)

What a blatant canyon, one rappel after the other is incredible. (machine translated)
