Specialities:

Gear:

Ropes: 2x20m (1x40/1x20m)

Summary: (machine translated)

Very aquatic, check water level from lower dam!, very clean, cold water.

Hydrology:

Access: (machine translated)

From the campsite Solarium in Domaso (in front of Garvedona) take the road to Garvedona --> at the beginning of the village turn right to Livo (steep asphalt road) --> after Livo continue (left) to Dangri --> from the cemetery 2,8km on a bad gravel road to the exit at Dangri (650m) (limited parking before the bridge).

Approach: (machine translated)

From the parking lot over the first bridge under the house --> before the 2nd bridge (stone bridge) first go about 100m to the left to the weir to check the correct water level (small climb) --> at the waterfall in front of the weir you can judge the water level well --> then back to the stone bridge, cross it and go left. Follow the stony pilgrims' path up --> below the mountain village (Boggio) away further to the left --> here you can also see the 2 large inlets into the torrent --> after approx. 30min. you reach the bridge (entry) at approx. 970Hm (signs at bridge).

Tour: (machine translated)

From the parking lot, cross the two streams and then turn left (northward) up to Baggio (930 m a.s.l.). Pass under the village and the fountain on the left and continue into Val Darengo until the trail reaches the borgo. You can also descend in the sparse coppice wood 500 m before reaching the bridge to the stream (first keep left, then along the rocky bank upstream until a problem-free downclimb becomes possible - marked with cairns in 2006).

Return: (machine translated)

Right down over dam wall --> downclimb the streambed over rock and stone --> leave the streambed before the bridge on the right --> follow trail to parking lot.
