**Summary:** (machine translated)
Aquatic canyon; few minor rappels, but many possible jumps. Quite frequented.

**Hydrology:**

**Access:** (machine translated)
Leave the Rhone Valley freeway A-7 about 20 km after Valence and drive west on the N-304 via Privas to Aubenas. From there, the journey continues on the N-102 in a northwesterly direction to Le Puy and then through the Ardeche valley about 12 km upstream to Lalevade. Here you take the D-5 to Jaujac, turn right (now 6 km after Lalavade) after the village onto the D-19 and climb the Col de la Croix de Bauzon (1308 m). 3 km after the mountain pass, take the D-24 to the left (southwards) and 100 meters further on take the first road to the right to the hamlet of Les Chambons.Here is a good place to park the car. If you have a second car, you can park it at the canyon exit at the bridge below the old castle. To get there, continue south on the D-24 over the Col de Meyrand (beautiful view!) and turn right at the village of Loubaresse on a narrow road (D-301) and drive down to the Borne (10 km in total).

**Approach:** (machine translated)
From the hamlet of Les Chambons, follow the little road - across the Borne - for about 1 km (you can also park the car here), where you then take a forest road on the left down to the river.

**Tour:** (machine translated)
Charming forest gorge in granite rock, little cut, with some longer walking passages, but also nice possible jumps. Exit possibility on the right up to Chazalettes after the longer narrow section with final 3 m jump.

ATTENTION: If, during the last jump, you decide not to do it from 8 m but to descend to the origin of the waterfall and jump from there, be very careful of the siphon that follows the water level. If you take the origin of the waterfall as the first point of reference, upstream there is a slab about 3 m long and then a rock 2 m high in the streambed. At the base of this rock, the siphon sucks strongly.... Caution

**Return:** (machine translated)
Turn right about 100 m before the bridge (after Borne has circled the castle rock). If you have not parked a second vehicle here, from the village of Borne, following the road to the right for about 100 m, you can take a path in a northeasterly direction (GR 72) to reach the hamlet of Chazalettes and from there continue on the little road to the starting point (about 6 km in 1½ hours).
