Specialities:

Gear:

Summary: (machine translated)
Canyon with a very vertical final part, to have good handling of ropes and caution with the recoveries, rubs, ... Beautiful views.
Prohibited from March to July. Park regulation:
https://barrancossierradeseguraalbacete.blogspot.com/?m=0

Hydrology:

Access: (machine translated)
We must get to Góntar for it by the A30 take exit 56 to the CM412. We will continue until after Elche de la Sierra that we will take a detour to the left to the CM3206 to Yeste.
Once in Yeste, take the exit to Gontar (A63) and continue to the Charca de las Juntas, go through the tunnel and after 100m we have the exit to Gontar on the left.
We will go up to this beautiful village, cross it and park in the next houses (100m later).

Approach: (machine translated)
On the track on the right for almost 3 kms. Shortly before reaching the Salto del Guerrero (200m before) we will find the dry riverbed of the torrent of the Salto del Pájaro, we take it to the right to go up a small path and when we reach the plain under the Puntal del Pájaro (without vegetation) we will turn right to the SW towards the next riverbed that begins to be sensed. From here it is to follow during 500m the watercourse with some dexterity until the first rappel.

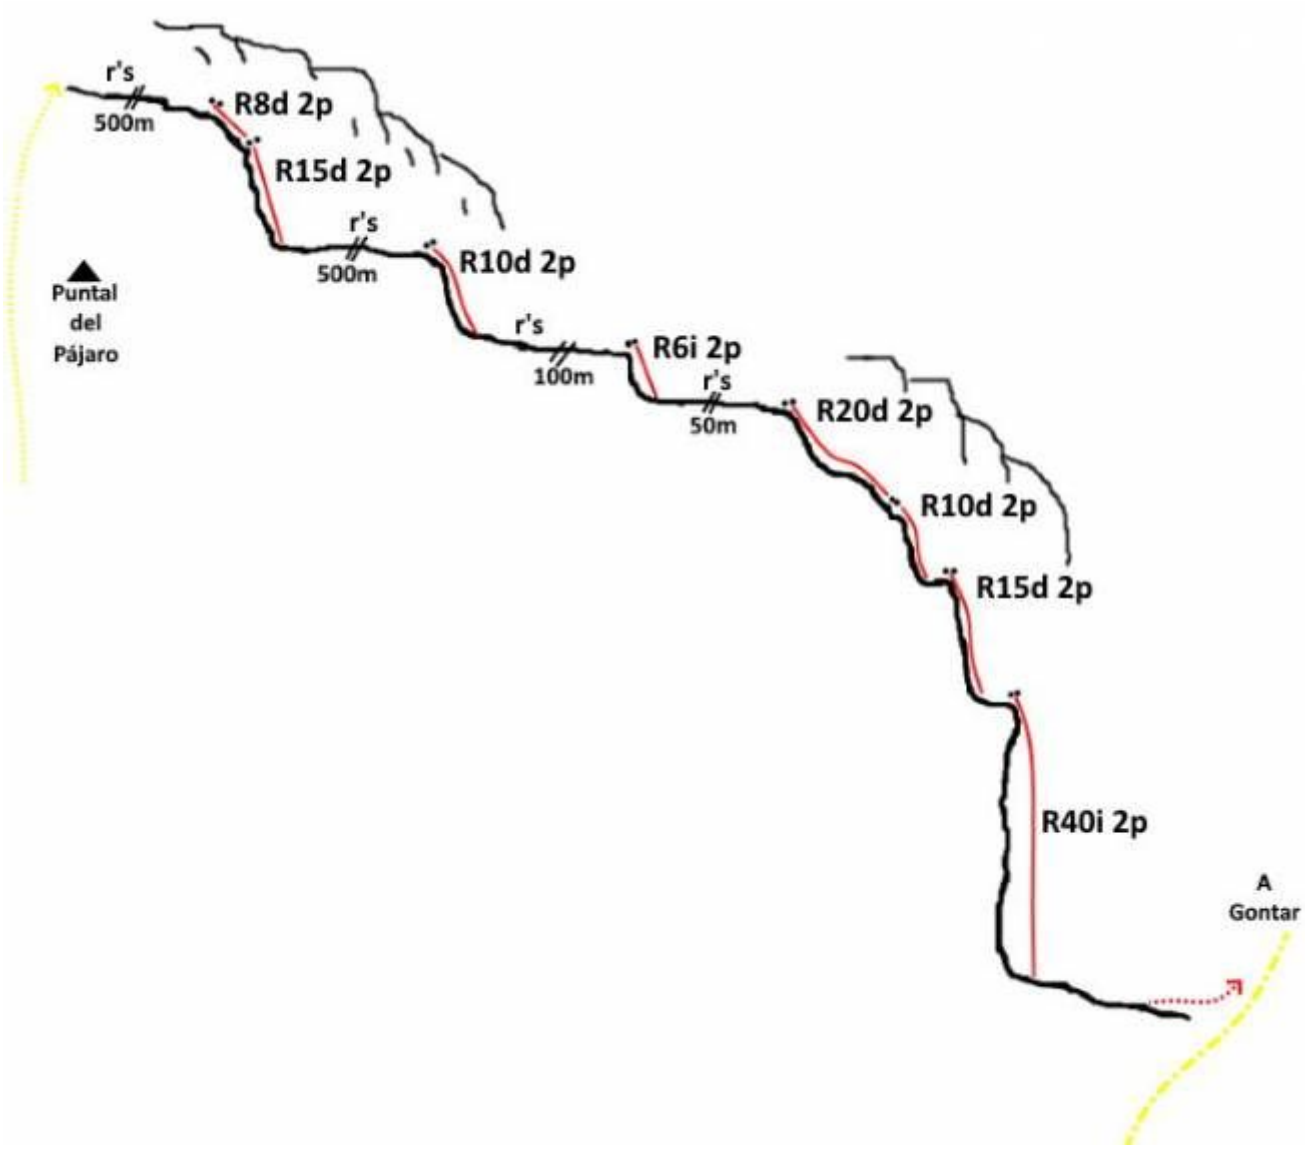

Tour: (machine translated)
A few first rappels for the first vertical, then we will walk, a couple of short rappels just before reaching the Tornajico jump. Spectacular vertical in which we will make 4 rappels.

Return: (machine translated)
When we reach the lower part of the wall, we will continue a few meters to the access path.
