Country: España / Spain **Region:** Aragón **Subregion:** Huesca **Town:** Alquezar, Lecina		
Difficulty: not as difficult	**Grading:** v1 a3 III	**Total time:** 5h50
Approachtime: 10min	**Tourtime:** 5h	**Returntime:** 40min
Altitude entry: 720m	**Altitude exit:** 630m	**Delta Altitude:** 90m
Canyon length: 8000m	**Highest rapell:** 0m	**Amount rapells:** 0
Transport: Car optional	**Rock type:** limestone	**Drainage area:** km²
Season:	**Orientation:** South	**Best Time:**
Rating: ☆ 4.2 (6)	**Info:** ★ 2.7 (3)	**Belay:** ★ 3 (2)

Specialities:
Suitable for families,

Gear:
Ropes: Notstrick

Summary: (machine translated)
Very long canyon, but without great difficulties; short access but long way back; doable with or without shuttle car; beautiful high canyon walls in eroded limestone; a lot of climbing, swimming and walking passages; some diving spots; much frequented canyon; can be combined with Basender or Barranco de Chimiachas or/and Portiacha.

Hydrology:

Access: (machine translated)
From the campsite Lecina --> road ri. Colungo --> park on the hill at the large gravel parking place of Rio Vero (signs Rio Vero and Basender) --> park shuttle car a few km further down at the village Asque.

Approach: (machine translated)
From the parking lot it goes straight down to the Rio Vero stream (easy access) --> get in right at the dam wall. You can also enter via the Bco Argatin inferiore (rappel max. 7m).

Tour: (machine translated)
The Rio Vero is a very long and beautiful gorge hike in mostly very open terrain, but there are always spectacular rock labyrinths in which you have to find your way imaginatively through the sometimes very narrow passages and crevices --> you don't need a rope for this --> a large backpack should be avoided because of the narrow passages in order to be able to master the impressive passages without any problems --> many narrow passages can also be bypassed or climbed around --> the tour is very much walked on --> you should take enough to drink (also for the way back) and possibly a snack with you --> the water in the gorge is clean but often agitated by the many canyonauts --> several swimming passages and long walks with small climbs are the main features of this hike. the water in the canyon is clean but often churned up by the many canyoneers --> several swimming passages and long walking passages with small climbs are the main features of the canyon.

Return: (machine translated)
The 1st option (with shuttle car) is to take the exit at the stone bridge where the signs and the hiking trail to Asque are also marked (approx. 1.5h) 2nd option without shuttle car: follow the signs to Barranco de Lumos (visible water pipe), first climb up, then into the Brranco de Lumos stream --> walk along it, after approx. 500m left out of the stream (inflow from the right) --> here the path mostly steeply uphill --> then follow the path above the depths of the canyons to the road (beautiful view, but long hiking trail) --> keep left at the visible telephone/electricity line --> once at the road, walk left the last km back to the parking lot (possibly stop).
From the Puente Villacantal, a much shorter ascent to Alquezar is also possible (approx. 40 min.). High above Alquzar, you can spend the night in your camper van free of charge.
In the past, it was also possible to walk out to the "Rio Vero" campsite along a path. However, this path has now been abandoned and only the remains of it are still recognizable.

Coordinates:
Canyon Start 42.2195 0.0429
Canyon End 42.1579 0.0267
Parking at Entry 42.2199 0.0454
Parking at Exit 42.1518 0.0289

Automatisch importiert von Descente-Canyon.com für Canyon Vero RAS tout passe bienNous n'avons croisé qu'un groupe d'indiv et un pro, des conditions exceptionnelles pour ce canyon habituellement très couru ! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2789/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Vero vero descendu depuis le parking du haut jusqu'au pont de villacantal. On est remonté rive gauche jusqu'à la route en 50' pépère pas très loin d'Asque. cela permet d'installer une petite navette de 7km au lieu de 23 er le stop y est plus simple car on est déjà sur la bonne route (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2789/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Vero Río Vero inférieur. Magnifique descente, tout passe bien. Superbes passages dans les chaos de blocs. Quelques groupes avec guides au départ mais vite dispersé (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2789/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Vero Vus 4 espagnols qui ont rentré le canyon dans le bief en aval du 2ème chaos, avec 2 grands chiens (qu'on entendait aboyer de loin...) dont 1 molosse... Ils ont bien dû s'amuser dans le 3ème chaos (les chiens peut-être moins, vu ils n'étaient déjà pas à la fête dans le bief au départ et que les maîtres ne semblaient pas avoir beaucoup de contrôle sur leurs animaux)... Beaucoup de monde à partir de la grotte de Picamartillo et l'arrivée des escaliers (en bois) du Barranco la Fuente puis sur le circuit des passerelles (en métal). Du monde sous le barrage et au départ du 4ème chaos (et des merdes...). Le toboggan passe bien comme le canyon est bien en eau.1 héron cendré avant et après le 3ème chaos. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2789/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Vero Demi vero : attaque depuis le 2ieme chaos. Depart du camping alquezar à pied. 1h d'approche, arrivés à l'eau à midi... Faisait chaud ???? Ballade aquatique sublime comme toujours. Vraiment fun avec les enfants, plein de passages sympa dans des chatières (pas de tob ou de gros sauts).Retour via les passerelles en sens inverse (autorisée pour les baranquistas) (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2789/observations.html)
