Summary: (machine translated)
An easily accessible, very intense, open vertical canyon. 20 rappels without any walking passage. Very watery even in summer.

Hydrology:

Access: (machine translated)
From Corte on a narrow road D623, with signpost "Restonica", to the parking lot at the exit at the altitude of about 1350 m.a.s.l. At the parking lot is the mountain hut Bergeries de Grotelle. The last part is subject to toll (6 euros - 2016).

Approach: (machine translated)
From the parking lot on the road downhill for about 100 m to the small bridge and cross it to the right bank of the Restonica. Pass through a few old farm buildings and then cross the Rau. de Cavacciole to the orographic. left bank. Now go up on a small path, first about 50 to 100 meters from canyon, then from halfway close to the canyon. The path is marked with stone markers. Then we come to a plateau at the height of 1680 m.a.s.l., where the canyon begins.

Tour: (machine translated)
A total of 20 rappel in succession, even some jumps possible. The penultimate rappel needs handrail at the access, the longest vertical rappel has a sharp edge - protectors needed! Escape possibilities everywhere - the whole canyon is accompanied by the path.

Return: (machine translated)
The same way back to the parking lot.

Road only passable to Camping Tuani itself, from there only passable by shuttle bus to "A Frasseta" (then 2 bridges collapsed, road partly broken away) - shuttle must be booked in advance! https://www.isula.corsica/Navetta-Restonica-C13_a4624.html From the terminus, you have to walk approx. 6km to the end of the valley along the hiking trail (signposted to "Lac de Melo", orographic left) - expect an additional 1.5-2h each way! Canyon didn't work out for us, water level would have been cool :) (machine translated)
