Summary: (machine translated)
forest canyon

Hydrology:

Access: (machine translated)
From Geneva, take the A 40 to exit 17 (approx. 30 km); turn off there and continue on the N 205 in the direction of Sallanches. After about 1.5 km, turn right onto the D 186 in the direction of Brizon. Pass through Thuet and at the start of the climb, park the first vehicle at a fountain on the left.
Continue uphill with the second and park just before the bridge under the rock face.

Approach: (machine translated)
Straight down to the creek.

Tour: (machine translated)
Dark forest canyon not without charm, which can be dangerous if there is too much water (backflow), but if there is too little water, the existing pollution becomes clear.
Possibly prohibited seasonally when there is little water flow, see:\nhttp://www.descente-canyon.com/canyoning.php/202-2243-Bronze.html
In the mentioned literature finding, it should be possible to park at the bottom in another place and access on foot from down there.

Return: (machine translated)
At the dam with the water drainage left out and along the lower edge of the slope - pathless - to the car at the fountain.

Coordinates:
Canyon Start 46.0590 6.4496
Canyon End 46.0603 6.4449
Parking at Entry 46.0588 6.4487
Parking at Exit 46.0604 6.4413

Automatisch importiert von Descente-Canyon.com für Canyon Bronze Suite au orage d'hier, le débit est redécendu au même niveau que samedi passer. Par contre les marques de crue de au moins 1m de plus que le niveau actuel son partout. On a sortit un arbre d'un toboguan et il y a plusieurs endrois avec des branche. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2243/observations.html)
