Gear:

Ropes: 1x25m

Summary: (machine translated)

forest canyon

Hydrology:

Access: (machine translated)

From Geneva, take the A 40 to exit 17 (approx. 30 km); turn off there and continue on the N 205 in the direction of Sallanches. After about 1.5 km, turn right onto the D 186 in the direction of Brizon. Pass through Thuet and at the beginning of the climb park the first vehicle at a fountain on the left.
Continue up with the second and park under the rock wall just before the bridge.

Approach: (machine translated)

Straight down to the creek.

Tour: (machine translated)

Dark forest canyon not without charm, which can become dangerous with too much water (backflow), but with too little water the existing pollution becomes clear.
Evtl. seasonally forbidden with little water flow, cf.:
<http://www.descente-canyon.com/canyoning.php/202-2243-Bronze.html>
In the mentioned literature site should be parked at the bottom in another place and access on foot from down there is possible.

Return: (machine translated)

At the dam with the water drainage left out and along the lower edge of the slope - pathless - to the car at the fountain.

Coordinates:

Canyon Start [46.0590 6.4496](#)

Canyon End [46.0603 6.4449](#)

Parking at Entry [46.0588 6.4487](#)

Automatisch importiert von Descente-Canyon.com für Canyon Bronze Eau très froide et canyon très glissant comme chaque début de saison au bronze.Ras équipements, peut-être la corde de la tyrolienne a changer car elle n'a pas l'air de toute fraîcheur... Du coup on a préféré faire le rappel (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2243/observations.html>)
