| <b>Summary:</b> (machine translated)<br>Middle section of the Ribeira da Hortela (sometimes counted as the upper section when only Superior and Inferior are described)   |                             |                            |
| <b>Hydrology:</b>   |                             |                            |
| <b>Access:</b> (machine translated)<br>Same as section 1 if you park at the top. If only one car is parked at the bottom, then drive to Chao da Ribeira on the ER221. Drive through the village until you reach the exit of the road/path.  |                             |                            |
| <b>Approach:</b> (machine translated)<br>Via several hiking trails to Levada do Norte up to the canyon. Jungle Rain/ Beira do Lombo Queimado is crossed along the way.  |                             |                            |
| <b>Tour:</b> (machine translated)<br>Part goes from Levada do Norte to Levada do Seixal. Shortly before the exit, Jungel Rain superiore/ Beira Lombo Queimado comes in from the right. The last rappel ends on Levada do Seixal and exits "backwards" into the tunnel. The rest of the waterfall belongs to the lower part and is rappelled from the right of the levada to the intermediate belay. |                             |                            |
| <b>Return:</b> (machine translated)<br>Over the Levada do Seixal to the hiking trail. From there, either follow the trail down towards Chao da Ribeira (second car at the bottom) or ascent to the car on the plateau. Or you can walk the lower part of the canyon.  |                             |                            |
