<b>Summary:</b> (machine translated) Wild rappel canyon		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) Take the A1 (via Milan) or the A21 (via Brescia) to Piacenza (southern exit). On a bypass to the south around the city, then on the SS 45 through the Val di Trebbia via Bobbio to Marsaglia. Before the bridge, turn left on SP 586 ('Chiavari').At about km 12 or 600m after the end of Salsominore, you should park the lower car. 900m further on, at Ruffinati, turn right over the Aveto and go up to Lisore. You will cross the Rio Lisore below a water intake (exit upper part, access lower part). \nHere you can take a look at the 30 m rappel point located directly below the road. The entry is at the point where the Rio Lisore is crossed again (after 3.6 km) during the further ascent. A suitable parking area can be found about 100 m further on in a bend to the right.		
<b>Approach:</b> (machine translated) cf. above		
<b>Tour:</b> (machine translated) Mostly open canyon in forest terrain, 'Kiesellatscher' (because storm in spring 2001 deposited a lot of debris, therefore hardly feasible jumps).Not very attractive.\n\nBetter the lower part from the road.		
<b>Return:</b> (machine translated) At the confluence with the Aveto, you cross it and meet the car parked below. \nMan can avoid swimming through the Aveto if, after the exit, you pull up to the right until you can avoid the steep drop on the right above. In this case, the lower car would have to be parked about 1.1 km after the Aveto bridge at Ruffinati.
