Summary: (machine translated)
Rappel canyon with difficult access and exit

Hydrology:

Access: (machine translated)
From Stanzach in the Lechtal (950 m above sea level) drive up the Nameloser valley in the direction of Namlos, Rinnen, Berwang. After a good 6 km, a freight cable car crosses the Namlos stream to the other side of the slope (company building slightly below the road). Park your car here (1200 m above sea level).

Approach: (machine translated)
On the road bridge to the eastern bank of the stream that descends into the Schwarzbrunnen valley. In the forest on the right-hand side of the stream, descend 100 meters to the Namloser Bach. At a jammed tree trunk, cross over to the other bank of the Namlos stream (there is a marker on a rocky ridge). Follow the path starting here upwards. Keep left at an unclear fork. At about 1250 m above sea level, you come to a path that leads from Namlos to Stanzach. Follow this path to the left (west) past the Schretterhütte until you reach the stream coming down from the Dürrekopfspitze - entry (1250 m above sea level).

Tour: (machine translated)
A series of rappels, no slides or possible jumps. The Namlos stream can cause problems when crossing at the exit. You should therefore only do the tour when the water is low. If the water is low, you can also take the last rappel into the Namlos stream, keeping to the left, via a small rock gate through which the water jet shoots through.

Return: (machine translated)
Once you reach the Namlos stream, climb steeply up the opposite slope without a path. After the first 20 meters of altitude, keep right before the next cirque and you will come to a grassy edge where you work your way up between mountain pines to the edge of the slope. From here, keep to the right (SW) and continue pathless up to the road and then left to the car. Perhaps a little further down in Namloser Bach the ascent back to the road is easier - it might be worth testing.

The hook at the cascade of three is flat. 35 m single strand is enough to abseil over all three steps. The way back through the Namlosbach and up to the car was definitely the most difficult part of the tour. (machine translated)
