Specialities:

Gear:

Summary: (machine translated)
Generally dry except after rains, when it may gain some interest. The environment is the best part of the canyon, it has several interesting rappels but, for us, it is not enough to make it, a collector's rappel.

Hydrology:

Access: (machine translated)
We must be located in the beautiful village of Camprodon, in the heart of the Pyrenees of Girona.
We will take the C-17 to Ripoll, there we will take the C-26 and then the N-260 towards Sant Joan de les Abadesses, where a little more than a kilometer past the village we will take the C-38 towards Camprodon.
We will pass Sant Pau de Segúries and just at the p.k. 7 we have Can Beia on the right, a place to park.

Approach: (machine translated)
We cross the road and climb steeply up to the clearing of the light line, turn left and after 50m we go through the mountain to climb the track that we have a few meters above.
From here we will follow the track uphill, heading SW until where the track crosses the stream.

Tour: (machine translated)
See mole

Return: (machine translated)
After the last rappel we turn right to take a path that leads us down to the road, we go back up to the vehicle.
