Summary:

Abseil and hiking canyon, always in abundant water but unfortunately polluted from the above village. 5 abseils of which the highest is only 10m make it an ideal beginner canyon.

Hydrology:

Access:

Approach:

Juzgar, aka the smurfvillage, either park in the village and hike down from there. Or take a steep and curvy road to the below factory by the exit of the canyon, from which you hike up or do a shuttle. Other - and recommended - option is to park at the exit of Majales canyon and combine both canyons, visit Juzgar and go for food etc on the return hike.

Tour:

Return:

Possibility to clean the material at the local swimming pool and fountain (shortly before P at the exit of Majales canyon).

Very polluted -directly after the source- from the above Juzgar village. Done Majales + Sima del Diablo combo. Both can be done with 25-30m of rope.
