Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Simple canyon for beginners, almost all the rappels can be climbed or avoided.

Hydrology:

Access: (machine translated)
We will have to be located in Abarán, next to Cieza on the A30.
Once in the town, we cross it towards the river, following the signs to the Virgen del Oro sanctuary, when we cross the river we turn right, and follow the Virgen del Oro street until a detour that sends us to the left. From here we will only have to follow the road to the Sanctuary without turning off (about 3kms).

Approach: (machine translated)
From the parking the trail starts next to the panel, soon crosses the ravine (where we will leave) and zigzagging up the slope between pines. At the end of the zigzags at about 450m above sea level (less than 1km from the parking) we will see a path on the left that descends to the riverbed.

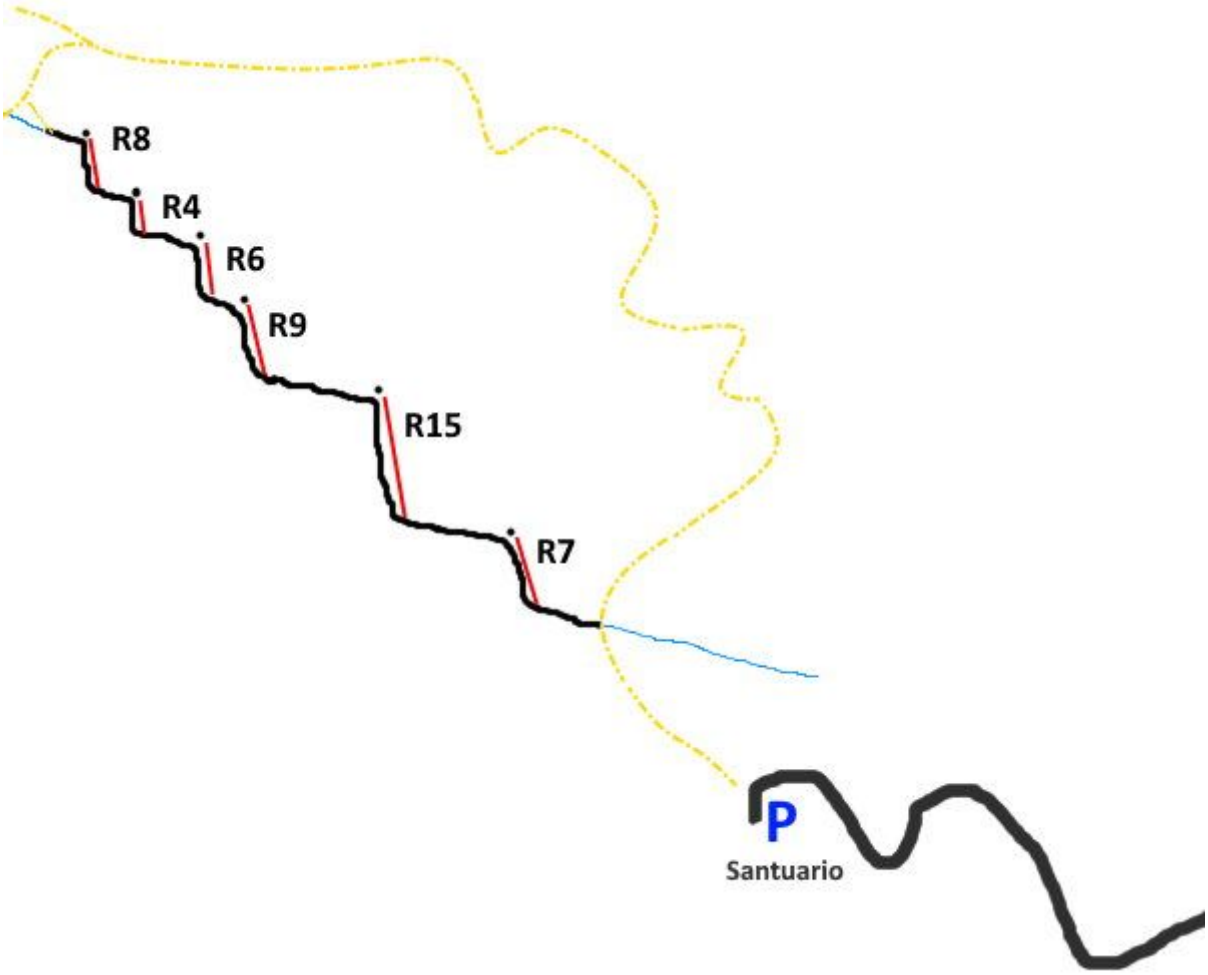

Tour: (machine translated)
You can do it up to the approach path (virgen del Oro) or further down with 7 more rappels, up to 13 meters, a little more technical, but easy all the same, you exit through the pipe to the right to the road.

Return: (machine translated)
The canyon ends at the access path, we take it to the right to reach the parking lot at the moment, or you can continue further down with seven more rappels (higher about 13 meters) and exit at the height of the pipe on the right to the road.
