Specialities:

Gear:

Summary: (machine translated)
Boring descent up to the upwelling, from there it is a simple, beautiful, well-dressed descent with a small final gorge.

Hydrology:

Access: (machine translated)
Location Saldes ravines
We will be located in Saldes, for them between Berga and Puigcerdà, just before reaching Guardiola de Bergueda, after leaving the tunnel we have the detour to the left by the B400 to Saldes and Vallcebre.
Access to Saldes ravines
Before reaching Saldes, just before crossing the bridge we have the detour to the right to Gresolet by a track. We get in here and follow the signs to the Sanctuary.
Arriving at the confluence of the Gresolet with the Saldes we have the refuge of Cal Ferrer, here we leave the car of return.
With the access car we continue towards the sanctuary and climb the Coll de Bauma, we will continue straight ahead towards Gisclareni and after passing the Coll de la Bena we reach the asphalt and find a parking lot.

Approach: (machine translated)
Access to Vallpregona and Cresto ravines
We will go to the Refugi Cal Tasconet and after the refuge we can already sense the funnel that makes the valley of the torrent.

Tour: (machine translated)
A first part always dry except after rains until reaching the spring, a second part of more interesting forest and the final small gorge.

Return: (machine translated)
Just before reaching the Saldes river we find a path, we take it to the right and it leads us to Cal Ferrer.
