Beautiful but short canyon with hard approach. Before the big waterfall you turn right and climb on the scree. Rhen follow the path till you cross the canyon. There are some ropes and you climb on the left side (looking up).. they said to me it is a possible aproach also on the left side. You start canyoning in a narrow part (3 waterfalls) then there are 2 waterfalls in the open, anchor points on the trees. You finish canyoning with waterfall Beri which is a 40 meter waterfall. Anchor point on the last waterfall very good. It is positioned on the left side behind the rock
