Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 2.8 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
A very vertical ravine, very aesthetic, well-formed, with two hollow areas separated by the Viey - Lias road. Generally with very good flow in spring, except for heavy rains, in summer it can almost dry up.

Hydrology:

Access: (machine translated)
From Tarbes we head towards Lourdes on the N21. Then continue towards Gavarnie-Gedre on the D821. Continue towards Gavarnie-Gedre on the D921 to Luz St Sauveur.
A Luz turn towards Barèges on the D918 and shortly after Viella, we will have a detour to the left to the "déchetterie" there we will leave the car back.
We will continue on the D918 and soon we have the detour to Viey. We go up and park the access car.

Approach: (machine translated)
From Viey we leave by the road that goes up to Lias at the end of the village (be careful with the landslides). Arriving at the stream of l'Arribere we can start here or by a small path in the undergrowth we can climb the orographic right above the waterfall to make the first two rappels.

Tour: (machine translated)
Nice and steep descent. Quite vertical

Return: (machine translated)
When we reach the bridge, we leave the bridge and go left on the road to the "déchetterie".
If we only have one car, from the "déchetterie" there is a road that goes up to Viey.

Coordinates:
Canyon Start 42.8845 0.0192
Canyon End 42.8806 0.0193
Parking at Entry 42.8821 0.0242
Parking at Exit 42.8799 0.0210
