Specialities:

Gear:

Summary: (machine translated)
Simple and short canyon to combine with any other in the area.

Hydrology:

Access: (machine translated)
Take the N145 from Seu d'Urgell to Andorra. Before reaching the border we find a traffic circle on the left that takes us to Civís, we take this road. Cross the bridge and turn left Civís and Alt Pirineu Natural Park.
We will pass Asnurri and we get into a narrow valley where we will find some sharp curves that go up to Civís, in the first one on the right, a few meters later we find a place to park.

Approach: (machine translated)
We go back to the bend and after the hut (old power plant) we find a path that goes up the stream and soon we turn left to the stream (5min).

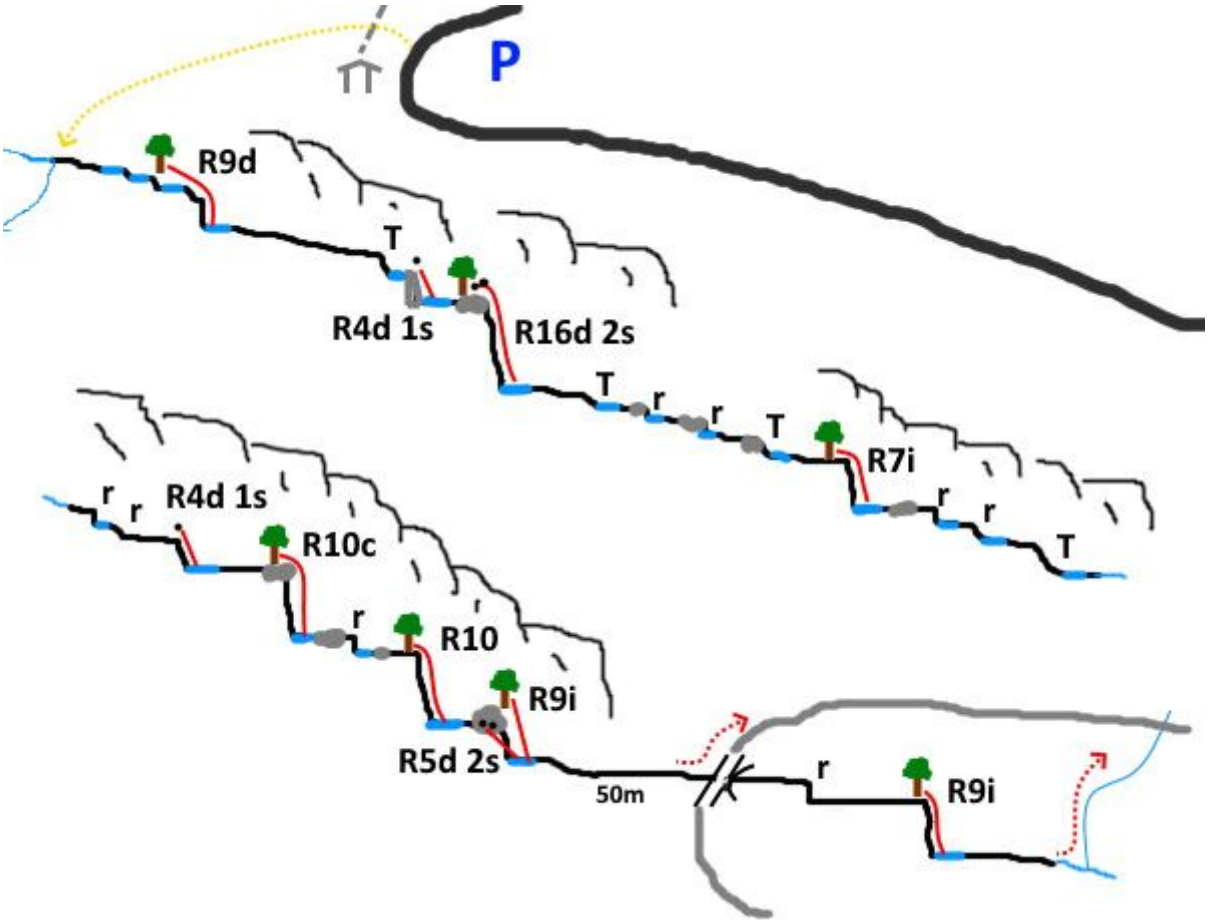

Tour: (machine translated)
Simple descent without big verticals. In spring with the thaw the flow can be high and bring some complications.

Return: (machine translated)
We cross a track that we take to the left and takes us to the road. If we pass the bridge we make the last rappel (not worth it) we can leave by the left tributary.
