Specialities:

Gear:

Summary: (machine translated)
Herbaceous, not too boxy but with very interesting parts, better in spring to ensure a good flow.

Hydrology:

Access: (machine translated)
We are located in Lousã, we will leave towards the south by N236.
Leaving we will find on the right the detour to the fluvial pools of Nossa Sra. da Piedade, place of completion of the descent. If we have two cars, we will leave the return car there.
With the access car we will continue to climb to the village of Talasnal.

Approach: (machine translated)
We have two options to go down to the river, by the PR2 Talasnal to Casal Novo or by the PR4.

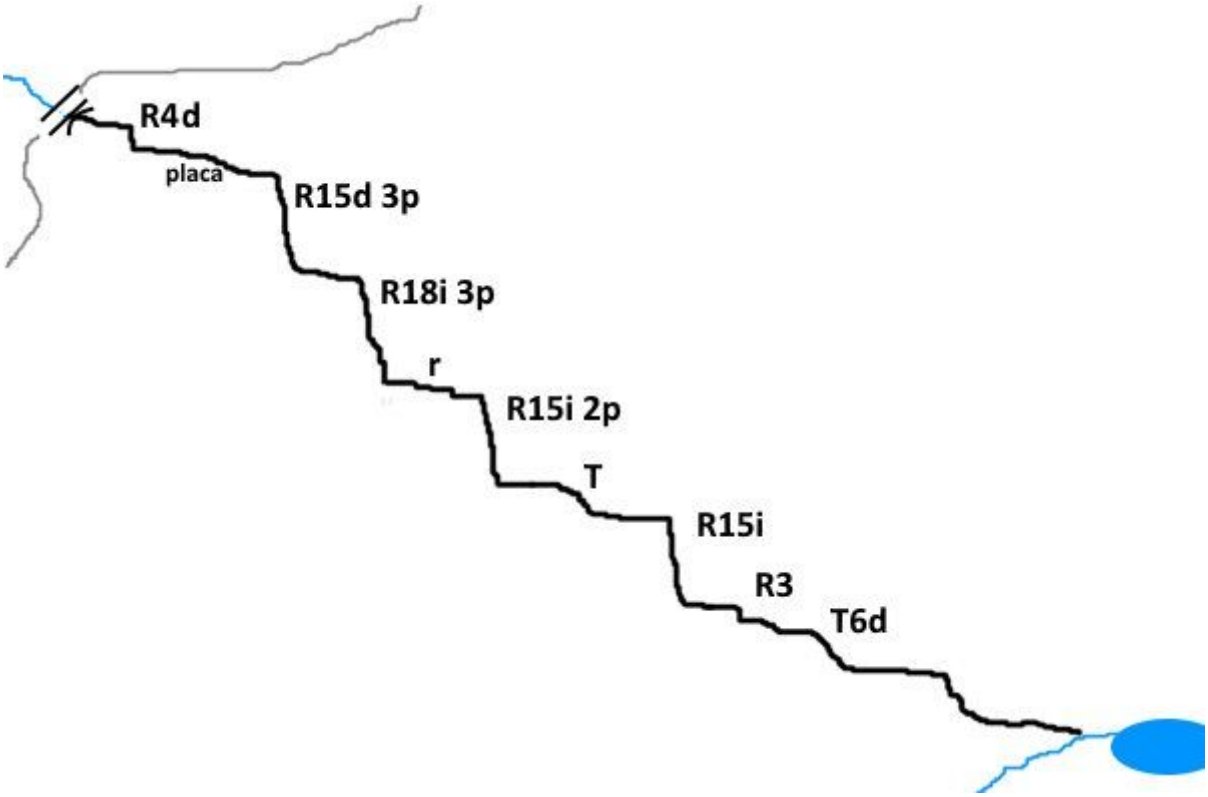

Tour: (machine translated)
Succession of waterfalls of greater or lesser size up to the fluvial beach.

Return: (machine translated)
If we have left the car in the fluvial beach it will be already there.
Without the combination of cars we can go up the path next to the creek or any of the other trails that go up the creek.
