Specialities:

Gear:

Summary: (machine translated)
Open and dry canyon except after heavy rains. It really only has an initial waterfall of tuff, beautiful but the rest are just skills and little else.

Hydrology:

Access: (machine translated)
From Reus by the C14 we will go to Montblanc, when arriving to Alcover by the TV7041 direction Montral.
From Montral take the detour to Capafonts, before reaching the village at pk 21.8 we will see an esplanade where to park the vehicle.

Approach: (machine translated)
Along the PR (cami de Reus) that goes up to Roques de Sant Humit, shortly after passing it we will see the small cirque on our right and the path crosses the riverbed.

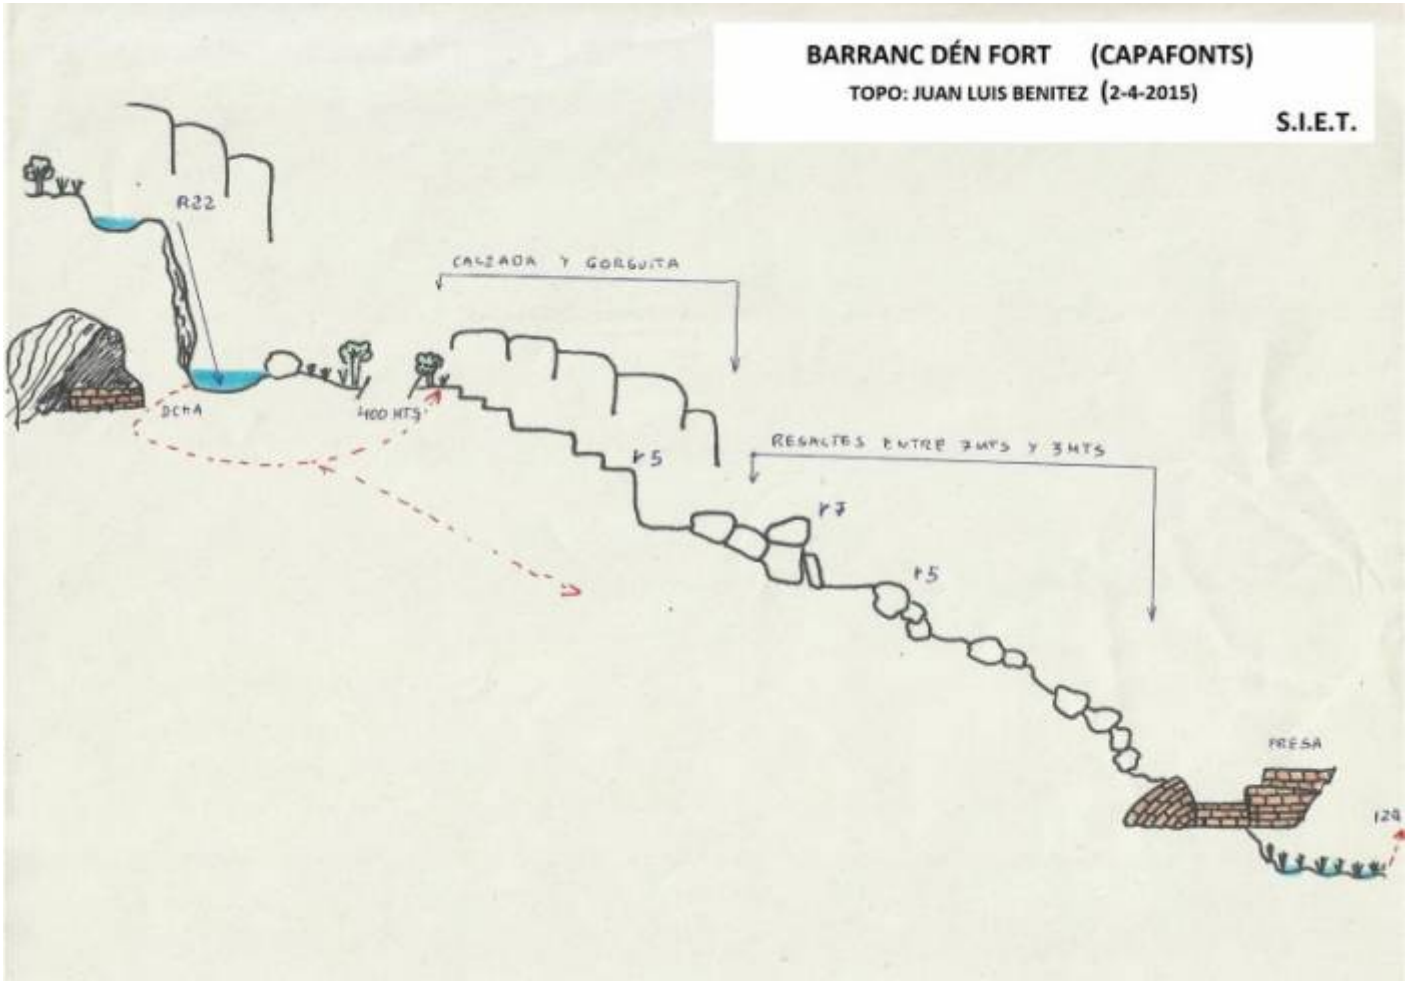

Tour: (machine translated)
As soon as we enter we have the 22 m. tuff waterfall. After it we will take a path to the right that avoids us an uninteresting area before the area of skills.

Return: (machine translated)
After the remains of the dam we will continue a little and we will exit to the left to an esplanade where a track that goes to the village passes.
