Automatisch importiert von Descente-Canyon.com für Canyon Le Roubier La première cascade de 10/12m passe en tob en collant rive gauche dans le jus. La vasque à la réception ferait 6m de profondeur d'après le guide que nous avons croisé. Suite à cela plus besoin (si on la sort pour la C10) de la corde, tout se passe en tob, glissade, saut.Très ludique un bon moment pour contrer la canicule.Dernier tob à refaire à volonté :) (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22922/observations.html>)
