2023-07-05 low insufficient Climbed on foot from the entry point at 420m to the river crossing at 940m. It is best to cut right inward on the previous route, which should reach the river at about 880m. The gear is the only fast one of 2009, often no gear and natural gear is used. On the last beautiful 35m descent the ropes have been replaced and a quickdraw added.
