Quite nice, if it weren't for all the garbage, especially in the initial 45 minutes of block climbing. Cool rappels. Last high rappel but rather 36m instead of 29m, all stands ok. (machine translated)

At the siphon we have set up a bypass on the left, as it had too much water. The high waterfall can be bypassed on the left. The anchoring of the water pipe can be used for rappel. (machine translated)
