## Specialities:

Glacier in drainage area, Dam (inform operator),

## Gear:

Ropes: 2x 25m

## Summary:

(machine translated)  
Canyon for downclimbing with some possible jumps

## Hydrology:

(machine translated)  
Water catchment in the upper reaches. Notification obligation at EW Oberland: Tel. 041 885 1337 or 041 885 1677 (?)

## Access:

On the A 2 or A 4 highway in the direction of St. Gotthard. The two highways walk together at the south-eastern end of Lake Lucerne (about 2 km north-west of the municipality of Altdorf). From here you drive another 55.5 km towards the Gotthard and then leave the A 2 at the Wassen exit.\nTurn left here onto the old Gotthard road, drive under the A 2 and 600 m after the underpass park your car in front of the old bridge over the Meienreuss.\nReturn with a second vehicle and drive into the center of the village of Wassen. About 100 m after the center (and 1.5 km from the lower car) we turn right onto the Sustenstraße, which takes us up towards Meiental. 2.5 km after the turn-off in Wassen, we come out of a long avalanche gallery and park the second car here at the roadside (parking bay).

## Approach:

(machine translated)  
From the exit of the avalanche gallery, we walk back 270 m and then take the footpath that leads down to a wooden footbridge over the Meienreuss. Below the path, we climb into the streambed.

## Tour:

(machine translated)  
Partly laborious downclimbing of the granite blocks, but several possible jumps. Attractive ambience.

## Return:

(machine translated)  
After passing under 3 bridges, we come to 3 bridges again at the exit of the canyon. After the third (old road) bridge, turn right up to the car.
